# Carnegie Mellon University Computer Club
We are Carnegie Mellon's student organization
devoted to computing research, systems
administration, and general computing fun!

- Club Activities:
    - Demo night: Show cool assembly and C graphics and audio demonstrations from over the years
    - Film nights: Show films related to computers, and gorge ourselves with delicious pizza
    - Game nights: Play old and new computer games on big screens or in the clusters
    - Machine room: Hang out in our machine room in Cyert and hack on projects
    - Retro collection: Machines from the 80's (Atari, Amiga, C64, SysV UNIX, VMS, ...)

- Club Services:
    - Contributed Webserver: access to databases, CGI/PHP scripting, no publishing; for users and orgs
    - Our own Debian-based Linux environment with AFS and Kerberos
    - Tartanswiki: http://www.tartanswiki.org/
    - Open Source mirror: ftp://ftp.club.cc.cmu.edu/, http://www.club.cc.cmu.edu/pub/
    - Usenet Server: news.club.cc.cmu.edu
    - Jabber: Instant messaging for a new generation
    - DNS and virtual hosting: use us to host your own projects and web sites
    - Other things: game servers, voice servers, databases, e-mail, HPC cluster, freenode IRC server, and more!

- Why you should join:
    - We need more people to help run things!
    - We want to hold more events
    - We want to develop more services
    - We want to expand outreach and advocacy: hosting talks, encouraging use of F/OSS, security contests and/or events
    - We want to do what you want to do!

- How to contact us:
    - Come to our meetings on Tuesdays at 5:00pm in Wean 5328, or come to our open machine room nights on Saturdays at 6:00pm in Cyert Hall B6
    - Our website is http://www.club.cc.cmu.edu/
    - Our bboard is cmu.student.computer-club
