#!/cmu/cc

We Create & Run Services

Computer Club hacks on projects used at CMU and around the world:
- **Contributed Webserver**
- **Open Source Project Mirrors**
- **Freenode IRC Server**
- **OpenVMS Cluste**r
- **Realtime Graphics Demos**
- **Jabber & Zephyr Chat Servers**

We Also Host Events

- **Demosplash**: The largest demoscene event in the U.S.   [October]
- **Retro Gaming Night**: Classic games on original hardware [March]
- **Tech Talks**: Learn skills. Compute better. Eat food.   [All Year]

And We Have Cool Toys

Members have access to our internal services:
- **Shell machines**: less crowded than andrew and no nightly reboots
- **Club AFS**: more space and faster access than andrew AFS
- **Virtual Machines**: why pay someone else to host and run your code?
