

# Computer Club's Handy CMU Computing Environment Cheat Sheet

## Useful web sites

`www.club.cc.cmu.edu` - that's us  
`www.cmu.edu/computing` - the official CMU computing site  
`www.cmu.edu/computing/firstconnect` - register machine for network access  
`webmail.andrew.cmu.edu` - your Andrew webmail  
`bandwidth.net.cmu.edu` - watch your network usage  
`netreg.net.cmu.edu` - modify registered machines

## Club free services

`www.contrib.andrew.cmu.edu` - supports cgi and php  
`www.tartanswiki.org` - (un)official CMU wiki  
`www.club.cc.cmu.edu/pub` and `ftp.club.cc.cmu.edu`

- local mirrors of ubuntu, gnu, backports.org, scene.org, and more

`news.club.cc.cmu.edu` - local Usenet server (posting permitted from on-campus)  
for a full listing or more information, `www.club.cc.cmu.edu/services.html`

## Bboards - accessible from webmail, CMU portal, or pine

`cmu.misc.market` - buy and sell items with your fellow students  
`cmu.student.computer-club` - that's us, announcement of events  
`official.cmu-news` - all propoganda, all the time  
`official.computing-news` - downtimes and other computing announcements

## Unix

`ssh` to `unix.andrew.cmu.edu` to access the Andrew Linux shell machines  
`www.cmu.edu/computing/doc/unix/unix-andrew/unix/index.html`

- learn to navigate Andrew Linux

Useful commands:

- `pine` - access your email from Linux
- `chsh` - change your default shell
- `maple` - the Maple mathematics software
- `matlab` - the Matlab engineering and mathematics software
- `cd ~/OldFiles` - yesterday's snapshot of your home directory!
- `cd ~/www` - your web space, accessible from `www.contrib.andrew.cmu.edu/~username`

## Pine (in)essentials

To be able to view the headers of emails:

- From main menu, (S)etup then (C)onfig. Locate and enable:  
`enable-full-header-cmd`  
`enable-full-header-and-text`

Subscribing to bboards: from the folder (L)ist screen, arrow down to Bboards, then:

- (A)dd or (D)elete subscriptions
